

**6712-01**

**FEDERAL COMMUNICATIONS COMMISSION**

**[OMB 3060-1165]**

**Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority**

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

**DATES:** Written PRA comments should be submitted on or before **[INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]**. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

**SUPPLEMENTARY INFORMATION:**

**OMB Control Number:** 3060-1165.

**Title:** Section 74.605, Registration of Stationary TV Pickup Receive Sites.

**Form Number:** N/A.

**Type of Review:** Extension of a currently approved collection.

**Respondents:** Business or other for-profit entities, not-for-profit institutions, and state, local, or tribal government.

**Number of Respondents:** 25 respondents; 33 responses.

**Estimated Time per Response:** 3 hours.

**Frequency of Response:** On occasion reporting requirement.

**Obligation to Respond:** Required to obtain or retain benefits. The statutory authority for this information collection is contained in 47 U.S.C. 303 and 308.

**Total Annual Burden:** 33 hours.

**Total Annual Cost:** \$16,500.

**Privacy Impact Assessment:** No impact(s).

**Nature and Extent of Confidentiality:** There is no need for confidentiality with this collection of information.

**Needs and Uses:** The Commission is submitting this expiring information collection to the Office of Management and Budget as an extension to obtain the full three year clearance from them. Section 74.605 requires that licensees of TV pickup stations in the 6875-7125 MHz and 12700-13200 MHz bands shall register their stationary receive sites using the Commission's Universal Licensing System. TV pickup licensees record their receive-only sites in the Universal Licensing System (ULS) database, including all fixed service locations. The TV pickup stations, licensed under Part 74 of the Commission's rules, make it possible for television and radio stations and networks to transmit program material from the sites of breaking news stories or other live events to television studios for inclusion in broadcast programs, to transmit programming material from studios to broadcasting transmitters for delivery to consumers' televisions and radios, and to transmit programs between broadcast stations. Registering the receive sites will allow analysis to determine whether Fixed Service links will cause interference to TV pickup stations.
